

PROFILE SRER KHMER

(UPDATED JUNE 2014)

SRER KHMER IS GUIDED BY OUR FIVE YEARS STRATEGIC PLAN 2011 – 2015

1. Background and Capability of Srer Khmer

Srer Khmer means *Field of Cambodia*, a local NGO dedicated to the support of sustainable socio-economic development through research, training, education and community development by promoting participatory learning, farmer-led activities, farmers networking, sustainable agriculture, and natural resources management.

VISION

Farming communities and community development workers must have the capacity, rights and ownership in making decision on any issues that are relevant to sustain their living.

MISSION

Srer Khmer, in recognition of farmers' rights and community development workers to learn, use and manage their own community resources and participate in any decision related to their livelihood, is committed to providing farmers opportunities to gain knowledge and strengthen their capacity to lead and manage their lives through participatory learning approaches which build on understanding the fundamental relationship between agriculture, environment and rural societies.

GOAL

Farmers and community development workers having increased control of their lives based on a mastery of ecological and social knowledge and skill.

To achieve this mission and goal, Srer Khmer works in close cooperation with relevant farmers groups, government institutions and other NGOs based on the values of honesty, equity, positive encouragement, gender equity and responsibility. Specially, Srer Khmer works with Farmer Trainers as main partners in developing broad farmer-to-farmer training activities in the areas of ecological agriculture and livelihood related issues. Farmer Trainers have played an important role in organizing farmer meetings and follow-up training activities. Key government district IPM trainers have been contacted to support these activities as a technical advisor to Farmer Trainers.

2. Establishment, Legal Status and Award

Srer Khmer was established and registered with the Ministry of Interior of the Royal Government of Cambodia and the local authorities on January 9, 2002 by a group of former staff of FAO Community IPM Program. The FAO project started in Cambodia in 1996 and ended in late 2001, therefore, to continue the activity of community based integrated pest management (IPM) Farmer Field Schools, a proven approach to successful ecological learning and farmer networking, Srer Khmer was the response to the need to further build on the work of FAO and facilitate the work of farmers-led activities.

Srer Khmer is certified by NGO Code Compliance Committee of NGO Good Governance and Professional Practices (NGO GPP) to award the NGO good practices project certificate since February 2009. This award meant that NGO GPP recognizes and appreciates Srer Khmer's efforts in complying with all standards and being role model NGO in Cambodia. To learn more go to www.ccc-cambodia.org

3. Organizational Structure and Management

The basic elements of Srer Khmer's organizational structure and the management are as follows:

- A Board of Directors which oversees and sets policy including Srer Khmer Statutes, Personnel Policy, Financial Policy for the organization, meets every four months to monitor Srer Khmer's activities and give feedback to the Executive Director who is responsible to the Board. The current Board has seven members and have 3 times meeting per year. However, the extraordinary meetings can call from any members if necessary take action on urgent matters should the need arise.
- The Executive Director is responsibility for all day-to-day activities, programs, projects and staff.
- The Management Committee consists of the Executive Director, Programme Manager and the Admin/Finance Manager has the role of coordinating and assisting the Executive Director with day-to-day activities.
- The Technical Coordination Committee (TCC) consisted of Executive Director, Programme Manager, Programme Officers, Project Managers and Admin/Finance Unit. TCC has the role of providing inputs on technical issues. TCC has at least 2 times meeting per year to set technical guideline for Srer Khmer.

4. Staffing

At the moment, Srer Khmer has more than 52 full time staff members including technical staff, support staff and graduate (intern) trainees. Most of them were based in the project based in the provinces. Fifteen (15) of them are women. Currently, Srer Khmer also has 1 Volunteer from Australian Volunteers to assist with program/organization development who are based in Phnom Penh head office. Srer Khmer used to have some 11 Australian Volunteers from AVI, VIDA and AYAD to work with us from the past to support project-based in the provinces and to support on institutional strengthen with the management committee. Apart from this, Srer Khmer hosted internship for several students from University of Washington, Brigham Young University, and University of Melbourne.

Apart from staff, we also have a network of well-trained farmer trainers/farmer promoters at the provincial, district, commune, and village levels where we can call upon for providing training at their respective communities.

5. Our Core Values

The following are our core values applied to everyone within Srer Khmer:

-
- | | | |
|----------------------|-----------------------|---------------------------|
| • Responsibility | • Respects ourselves | • Respect others |
| • Team work | • Empowerment | • Commitment |
| • Open communication | • Sharing experiences | • Learning and motivation |
-

6. How Srer Khmer Works

Srer Khmer works based on project by project from donor/s guided by our strategic plan 2011 – 2015. Srer Khmer run projects with effectiveness and efficiency. Our administration cost is low and operational costs are met with the target clients/beneficiaries. Srer Khmer runs projects in 12 provinces without having any vehicle since the inception of the organization.

Our management and technical staff members hold at least University degree in agriculture and equip with just necessary equipments such as motor-bike and laptop to deliver a high quality services with professional manners.

7. Program Thematic Areas (2011 - 2015)

The following are the programmatic areas as stated in our strategic plan 2011 to 2015:

1. Sustainable Agriculture and Land Resources Rights
2. Natural Resources Management and Livelihoods
3. Climate Changes Adaptation and Disaster Risks Reduction (CCA/DRR)
4. Agri-Business and Value Chains
5. Capacity building to support small provincial NGOs and other concerned stakeholders. *Srer Khmer plays a role as capacity builder nation-wide. Training on topics related to FFS/post-FFS, FLS, Socio-economic analysis, living soil, integrated homestead production, insect ecology, farmer association management, business planning, participatory marketing study, project management, participatory monitoring and evaluation, knowledge management, Training of Trainers, and other topics related ecological agriculture and community/rural development, etc., Participatory research and analysis and Project review and evaluation*

8. Project Approaches

Srer Khmer works in close cooperation with relevant farmers groups, government institutions and other NGOs based on the values of honesty, equity, positive encouragement, gender equity and responsibility. Specially, Srer Khmer works with Farmer Trainers as main partners in developing broad farmer-to-farmer training activities in the areas of ecological agriculture and livelihood related issues. Farmer Trainers have played an important role in organizing farmer meetings and follow-up training activities. Key government district trainers have been contacted to support these activities as a technical advisor to Farmer Trainers.

After receiving training either through Farmer Filed School (FFS) or a series of short training, farmers are trained to develop their individual action plan for livelihood improvement for the next season.

The following are specific project approaches we designed most of our projects:

a). *By using FFS or a series of short training towards integrated farming for livelihoods improvement*

- Farmer-centered learning and Integrated Farmer Field School (IFFS)
- Organic agriculture (vegetables, rice and cashews)
- Markets and marketing development
- Living soil

- Agro-biodiversity

b). By using Farmer Life School (FLS)

- Human ecology and social/economic constraints analysis by farmers
- Farmer and community health studies
- Farmer advocacy and rights
- Gender and vulnerable and marginalized groups; and
- Farmer planning for livelihood improvement

c). By forming farmer networks and farmers' rights

- All farmers led initiatives
- Farmer Association development, networks and membership based associations
- Farmer learning centers
- Facilitation and support for producer associations
- Facilitating meetings and training for farmers to present issues that are relevant to their lives farmers' rights

d). By using the combination of FFS and FLS to form a IFFLS (Integrated Farmer Field and Life School)

- Human ecology and social/economic constraints analysis by farmers
- Agro-technology analysis by farmers

9. Project Accomplishments todate

By the end of 2013, we accumulated up to 800 Farmer Associations in 800 villages, 130 communes of 65 districts in 12 provinces (Kandal; Kampong Cham; Kampong Thom, Prey Veng, SvayRieng, Takeo; Kampong Speu; Pursat, Battambang; Pailin, Siem Reap and Banteay Meanchey). Srer Khmer has delivered a wide range of farmer led training to more than 53,787 farmers (48% of whom were women), farmer trainers and Government District Trainers (about 200,935 farmers family beneficiaries).

In the year 2013, Srer Khmer has some 9 projects in 12 provinces in the fields of agricultural production, food security, natural resources management, farm genetic diversity, women's empowerment, community development and Farmer Association/Self-Help Group formation and management. Our current financial supporters and clients for 2013 are included Cambodia HARVEST, Oxfam America, MOWA-CCCA, FAO-EU, PLAN International in Cambodia, and SEARICE.

10. Project management experience, monitoring and evaluation capacity

Project Implementation

Normally, full time project staffs are hired based on project requirements, their educational background, experiences and motivation. The project staff members are the agronomists that work closely with beneficiaries, local authorities and government stakeholders. All project staff prepares monthly project action plans and budgets based on agreed project requirements. The project staff members will work under the supervision of the Senior Program Manager the cost of whom is shared by the project. The overall responsibility for the project is with the Executive Director.

Project Progress Report

Srer Khmer will submit project progress reports to the donor on a monthly basis and/or a three months basis (quarterly basis) or as required. All project staff must submit their achievement

report to Senior Program Manager in monthly basis, the Senior Program Manager is responsible to compile and elaborate on project progress in a report submitted to Executive Director for review and submission to the supporting agency (donor). Srer Khmer covers all projects in its annual report and at the end of a project produces a report which captures all the lessons learnt during the duration of the project.

Project Monitoring and Evaluation

The internal project monitoring and evaluation is routinely conducted every three months by the Srer Khmer program team which consists of Executive Director, Senior Program Manager, Senior Program Officers and Finance Manager together with Project staff. The results based monitoring and evaluation is the main tool for conducting internal project monitoring and evaluation of each project using a participatory approach in which project beneficiaries and local authorities are also involved in the process. The external project evaluation is normally conducted by independent consultants with a contract based on Srer Khmer procedures or by the donor/s and is normally conducted at the end of the project.

10. Capability and experience of managing and accounting for grants

As already stated, Srer Khmer has had experience managing, delivering and accounting for some 60 projects to the satisfaction of the donors. Srer Khmer has the necessary protocols and procedures to manage and account for small and large projects with a professional manner.

ON GOING PROJECTS – 2014

- 1. Kampong Thom Food Security and Agriculture project** – through sub-contracted with Fintrac, Inc. to implement a project Cambodia HARVEST in Kampong Thom province for 14 months started from June 2012 until January 2014 and then for another 22 months from Feb 2014 to November 2015.
- 2. Pursat Food Security and Agriculture project** – through subcontracted with Fintrac Inc. implements the Cambodia HARVEST project for 18 months starting from September 2011 until Feb 2013 and then continue another second phase for 16 months up to June 2014. Srer Khmer is on the process to put another bidding to continue for some 16 months from July to 30 October 2015.
- 3. Saving Funds Facilitator** – through subcontracted with Fintrac Inc. implements the Cambodia HARVEST project for 18 months starting from 1st April 2014 until 30 September 2015. This project is implemented in Kampong Thom and Pursat province
- 4. Extension of SRI techniques to improve farmer resilience** – supported by Oxfam America to implement a Farmer Field Schools (FFS) on the System of Rice Intensification (SRI) and seed breeding in Pursat and Kampong Speu provinces from June 2010 to April 2013. Then, the project is extended until April 2015.
- 5. Climate Change Adaptation for Livelihoods of Rural women project of the gender and climate change committee of the Ministry of women’s affairs** – Srer Khmer was offered a sub-contract from MOWA which funded by CCCA to conduct training on adaptation focus on agriculture in collaboration their line provincial department of women’s affairs in Otdar Meanchey, Preah Vihear and Stung Treng from February 2013 to April 2014.

6. **Livelihoods, WASH, and Nutrition components of EFAP-AF** – through partnership with PLAN International in Cambodia, Srer Khmer is implementing a project in Kampong Thom for a period from September 2013 to 31 October 2014.
7. **Participatory Conservation, Development, and Sustainable Use of Seed in Cambodia** – through sub-contract with SEARICE (Southeast Asia Regional Initiatives for Community Empowerment), Srer Khmer was asked to be a Fund Manager for the project implemented by The Cambodian Government through its Department of Rice Crop of the General Directorate of Agriculture (DRC-GDA) for a period from 2013 to Dec 2014.
8. **Cashew nut training** – through service contract from NTFP which received fund from ICCO, Srer Khmer was asked to provide training on cashew nut production techniques and farmer association management to farmers in Rattanakiri province for a period from 2013 to December 2014.
9. **Chicken production Farmer Field School** – through a service contract from CRY (UK NGO), Srer Khmer was asked to facilitate training by using FFS on Chicken production to their farmers in Stung Treng province for a period from 2013 to December 2014.
10. **Diversification of Peri-urban Agriculture in Siem Reap** – in sub-contracted by Agrisud International with the financial support of Conseil Général des Hauts-de-Seine (French Department) Srer Khmer implements this project aimed to support the project targets small farmers and aims to improve farming techniques, crop diversification, and agricultural products marketing. This project is for a period of one year until Dec 2014 and possible extension.

COMPLETED PROJECTS (2002-2013)

1. **Enhancing Capacities for Disaster Risk Reduction in Agriculture in Cambodia and the Philippines** - with the support from FAO through OSRO/RAS/210/EC, Srer Khmer was provided a sub-contract to support in the development of DRR action plans in Kampong Speu province. This project is from January to November 2013.
2. **Enhancing Capacities for Disaster Risk Reduction in Agriculture in Cambodia and the Philippines** - with the support from FAO through OSRO/RAS/210/EC, Srer Khmer was provided a sub-contract to support in the development of Good Practices of DRR in Agriculture. This project is from January to November 2013.
3. **Conduct agro-chemical training** – As a sub-contractor with the Cambodia HARVEST to provide training to inputs suppliers in Battambang province for a period of 5 months from May to October 2012.
4. **Increasing Dialogue for Empowerment and Actions (IDEA)**-in partnership Catholic Relief Services (CRS) with funding supported from the United States Government implemented a project based in Kampong Cham province. This project aimed to reduce vulnerability and improved livelihoods of Muslim Cham rural poor depending on natural resources and other agriculture, value chain and marketing activities. This is a 2 year project started from October 2010 and will be ended by September 2012. The possible no-cost extension until December 2012.

5. **Providing training on agricultural techniques to TAF partners.** Srer Khmer plays a role as service provider to facilitate 13 trainings on home garden, mushroom production, chicken raising, fish and frog raising in Kampot province for a period of two months which started from June until August 2011.
6. **Providing training on agricultural techniques to CREDIT MFI.** Srer Khmer was offered a contract to facilitate some 90 training to CREDIT MFI clients on agriculture techniques between June to December 2011.
7. **Supporting Land Rights for Small Household Farmers towards Livelihood Security** for poor farmers in Banteay Meanchey and Battambang provinces in post conflict food security supported by Norwegian Peoples Aid (NPA) since 2002. This year NPA is to cover from January to December 2011. The project has been implementing in a support from NPA since 2001 and 2011 is a phase out year from Battambang and Banteay Meanchey provinces.
8. **Providing training on chicken and pig production** – in partnership with CARE CHiFS project in Ratanakiri province facilitates training of trainers on chicken and pig production started from April to June 2012.
9. **Providing training to KREDIT MFI** – in partnership with KREDIT MFI conduct livelihood training to their clients started from April to Oct 2012.
10. **Conducting training on Cashew production** – in partnership with MOT-ADB-JFPR and MRNF conducting training to farmers in KPT. This is about 40 days works only
11. **Civil Society and Pro-Poor Market-** in partnership with The Asia Foundation (TAF) with funding supported from DFID/DANIDA no cost extension NRML implemented a project based in Kampong Speu province. This project aimed to reduce vulnerability and improved livelihoods of rural poor depending on natural resources and other agriculture, value chain and marketing activities. This is a 9 months project started from March 2011 and will be ended by November 2011.
12. **Conduct training to Cashew Farmer Associations and Training was supported by EC-IFC-Phase 3** for a 6 month period in Kampong Cham and Kampong Thom from January to June 2011. This project works in cooperation with GRET (a French NGO specialized in Agriculture and Rural Development) to provide training on the following topics:
 - Farmer Association Management training
 - Organic cashew production methods training
 - Internal Control System (ICS) for organic registration
 - Pre and Post Cashew Harvest management training
13. **Integrated Farming and Marketing for Livelihood Improvement project** – is supported AusAID's Community Development Fund to implement a two year project in Pursat province from Feb 2011 to January 2012 for rice improvement, and homestead production and marketing.

- 14. Farmer Field School- Chicken Production** – in getting contract from CARE EC Food Security project implemented a pilot FFS on chicken production in Pailin province for a period of 3 months and ends on March 2010. Another one year project is on the process to cover from 1 April 2010 to April 2011.
- 15. Agricultural inputs distribution** – in partnership with FAO-EUFF implement a project to distribute agricultural inputs to household affected by the volatile food prices in Kampong Speu province. This project started from April 2010 and will be ended on May 2011.
- 16. Conducted training to Cashew Farmer Associations and Training was supported by EC-IFC-Phase 2** for a 5 month period in Kampong Cham and Kampong Thom from July 2010 to December 2010. This project works in cooperation with GRET (a French NGO specialized in Agriculture and Rural Development) to provide training on the following topics:
- Farmer Association Management training
 - Organic cashew production methods training
 - Internal Control System (ICS) for organic registration
 - Pre and Post Cashew Harvest management training
- 17. Rural Ecological Agriculture for Livelihood (REAL)** -supported by KEMI/SIDA (Swedish Aid) through the Field Alliances (TFA) based in Bangkok, Thailand, to implement a project on chemical free vegetable production in Kampong Cham province. This is a 3 years project which is currently implemented as phase 1 of a regional project led by KEMI and the FAO Vegetable IPM programme: "Towards a non-toxic environment in South-East Asia."
- 18. Development project** – supported by Latter Day Saint Charity (LDSC) to provide training on home garden and chicken production to the farmer groups in Kampong Thom, Kampong Cham and Siem Reap provinces. This project is implemented from Feb 2010 to November 2011.
- 19. Civil Society and Pro-Poor Market-** in partnership Catholic Relief Services (CRS) with funding supported from DFID/DANIDA implemented a project based in Kampong Speu. This project aimed to reduce vulnerability and improved livelihoods of rural poor depending on natural resources and other agriculture, value chain and marketing activities. This is a 3 year project started from March 2008 and will be ended by October 2010.
- 20. Integrated Farming and Marketing Systems - 2-** in partnership with CRS-USCC with funding both from CRS and McKnight Foundation (US) to implement a project on integrated farming, cash crops and marketing based in Siem Reap province. This is a 3 years project started from August 2007 and will end July 2010.
- 21. Farmer Field School on SRI and Book Keeping** – supported by Oxfam America to implement a pilot project of 15 Farmer Field Schools (FFS) on the System of Rice Intensification (SRI) and Bookkeeping in Pursat province from July 2009 to March 2010 to evaluate SRI rice production and marketing against other rice production systems. Another three year project is on the process to finalize.
- 22. Conducted training to Cashew Farmer Associations and Training was supported by IFC/MPDF** for a 8 month period in Kampong Cham and Kampong Thom from November 2009

to September 2010. This project works in cooperation with GRET (a French NGO specialized in Agriculture and Rural Development) to provide training on the following topics:

- Farmer Association Management
- Organic cashew production methods
- Internal Control System (ICS) for organic registration Pre and Post Cashew Harvest management

23. Development project – supported by Latter Day Saint Charity (LDSC) to provide training on home garden and chicken production to the farmer groups in Kampong Thom, Kampong Cham and Siem Reap provinces. This project is implemented from Feb 2010 to November 2011.

24. Sustainable Land and Biodiversity Conservation Project-in partnership with UNDP Global Environment Facility Small Grants Programme to implement a project based in Kampong Cham province for rice improvement and homestead production. This is a 2 years project started from August 2007 and will end on July 2009.

25. Integrated Farming and Marketing for Livelihood Improvement - in partnership with NZAID based in Bangkok, Thailand to implement a supplementary project to that (see 6 below) supported by CRS in Siem Reap. This NZAID SGP funded project started from November 2007 and will be finished in October 2009.

26. Agro-biodiversity Used and Market Development Contributing to Food and Livelihood Security - in partnership with PEDIGREA Association based in the Philippines and received funding from NOVIB (Oxfam Netherlands). This is a one year project for Farmer Field School in rice and vegetable improvement and marketing, started from January 2009 to December 2009 and it is a follow up project in KDL, KSP and Takeo provinces.

27. Sustainable Land and Biodiversity Conservation Project- in partnership with UNDP Global Environment Facility Small Grants Programme to implement a project based in Kampong Cham province for rice improvement and homestead production. This is a 2 years project started from August 2007 and will end on July 2009.

28. Pilot Development of Cashew Farmer Associations and Training was supported by IFC/MPDF for a 6 month pilot project in Kampong Cham and Kampong Thom from January to June 2009. The project commenced in 2008 with support from Mekong Rain Natural Foods (MRNF) for organic cashew production in Kampong Cham province. IFC took over the initiative in 2009 with support for a 6 month Cashew Farmer Association development and training pilot project. With IFC support Srer Khmer produced training manuals and provided training and support to 12 Farmer Associations (360 farmers) in:

- Farmer Association Management
- Organic cashew production methods
- Internal Control System (ICS) for organic registration Pre and Post Cashew Harvest management

29. LEARN IT Project supported by ADB/CARDI to assist in implementation of CRKB to assist farmers to make rice management decisions to improve productivity and profitability in Prey

Veng, Svay Rieng and Pursat provinces. This project was implemented from mid-2007 to 31 December 2008.

- 30. *Integrated Farming and Marketing for Livelihood Improvement*** - in partnership with FAO in Phnom Penh to implement a one year pilot project in Pursat on rice and homestead production from January to December 2008.
- 31. *Food Security and Livelihood Improvement Project*** supported by CIDA/FSIF conducted Farmer Field Schools in cash crops, vegetable and animal production for poor farmers and supplied chickens to the poorest farmers to 14 Farmer Associations in Battambang province from May 2006 to April 2008.
- 32. *Establishment of Village Fruit Nurseries in 4 Selected Villages, Banteay Meanchey*** - supported by EC's ECOSORN the project developed 4 fruit tree nurseries Banteay Meanchey province in 2008.
- 33. *Integrated Women Empowerment Project*** - in partnership and supported by ADDA (Agriculture Development Denmark Asia) in Siem Reap Province. The project and partnership ended on 31 December 2008 the project focus was on Farmer Associations, integrated farming, rice, vegetables, animal production for benefit of poor rural women.
- 34. *Small Scale Irrigation System to Support Livelihood Security*** - as top-up grant to the GEF funded project, this UNDP TRAC FUND project is implemented in Kampong Cham province to ensure water supplies to increase agriculture productivity and diversification of community agriculture and to improve safe drinking water supplies.
- 35. *Responsible use of Agro-Chemicals and Value Added Agri-Services*** - supported by IFC/MPDF to conduct 2 cash crop Farmer Field Schools, survey of local pesticide use and value chain crop marketing/storage was undertaken as a short term project/consultancy for Maddox Julie Pitt (MJP) Foundation in Samlaut district, Battambang province from July to December 2007.
- 36. *Support of Mine Clearance for Development Project*** - with financial support from EC's ECOSORN project implemented a post-demining agriculture training in homestead production, cash crops and Self Help Group formation in Taven village, Morng Reussey district, Battambang province over 7 months to November 2007.
- 37. *Provision of Facilitation of Community Flood Management (CBFM) and School*** - supported by the ADPC office based in Bangkok, Thailand, to implement a pilot project training commune councils in disaster management and rehabilitation in Prey Veng and Kandal provinces over 4 months to end September 2007.
- 38. *Proactive Project*** to train and support 15 community forestry LNGOs from 12 upland and lowland provinces for the SGP - PTF Programme administered by UNDP. The LNGOs were given training in Project management, Business and Marketing and Knowledge Management and field coaching in Participatory Monitoring and Evaluation over a 12 month period.

- 39. Urban/Peri-Urban Agriculture** supported by FAO/United Nations based in Rome, Italy to conduct a study on low income producers in urban and peri-urban of Phnom Penh. The study was subsequently incorporated into a regional manual.
- 40. Livelihood Improvement Project**, for poorer farmers in Kampong Cham province, supported by CDF-AusAID from January to December 2006 provided Farmer Field Schools in livelihood improvement and homestead production and Farmer Association formation.
- 41. Capacity Building for Farmer Associations Project** supported by DANIDA-IPM in Kandal; Kg. Cham; Takeo; Kg. Speu; Battambang; Siem Reap and Banteay Meanchey provinces provided governance and leadership training and exchange visits for Farmer Associations.
- 42. Post-FFS Training** in cooperation with FAO-IPM to provide training in living soil and SRI rice techniques to Farmer Trainers and District Trainers post FFS in Battambang, Kandal, Kampong Cham and Siem Reap provinces.
- 43. IPM program in rice and vegetables** supported by FAO/United Nations using FFS approach 2002-2005 was an extensive national program and core a program and origin of Srer Khmer.
- 44. Farmer Life School** training supported by FAO, in social welfare, health (HIV/AIDS awareness) and food security along Highway 5 in 2003 was delivered by Srer Khmer
- 45. On-farm Trials of Low Net Tunnel Technology** supported by SUSPER/AVRDC-MOFA (France) to trial to grow leafy vegetable crops under plastic was a small research project undertaken by Srer Khmer
- 46. Insect Ecological Identification and Training Project**, supported by the Dietrick Foundation, USA 2002–2005, was undertaken by Srer Khmer to support the IPM program and organic farmers and to eliminate pesticide use.
- 47. The Participatory Plant Breeding Project (PPB)**, The PPB project was supported by the Center for Genetic Resources, Wageningen University Research and the PEDIGREA Foundation, Asia focused on participatory crop and poultry genetic resources in rice-based farming systems in Kandal, Takeo, Battambang and Kompong Speu provinces.
- 48. In cooperation with DANIDA-IPM Project**, in 2006 Srer Khmer was the resource organization in developing training guides on topics related to livelihood improvement and training to strengthen farmer groups in capacity building, organization and management, marketing, and exchange visits, etc.
- 49. In cooperation with other agencies.** FAO/National IPM to facilitate training of Farmer Trainers in Prey Veng province; with TCP/CMB capacity building post FFS; and with Care Cambodia FLS training in Battambang province. Srer Khmer has conducted external project evaluations for other NGOs, and CRS (Svay Rieng province), training for Mlup Baitong (Kg. Speu province), training materials for Danida–NRM-CDC and a horticultural consultancy for VSO (Stung Treng province).

50. NGO Forum contracted Srer Khmer to conduct a series of regional Pesticide Workshops covering pesticide use, health, regulation and alternatives.

8. Previous/actual sources of funding

Srer Khmer implements project-based on funded by development partners and the annual budget is between \$350,000 to 500,000USD.
